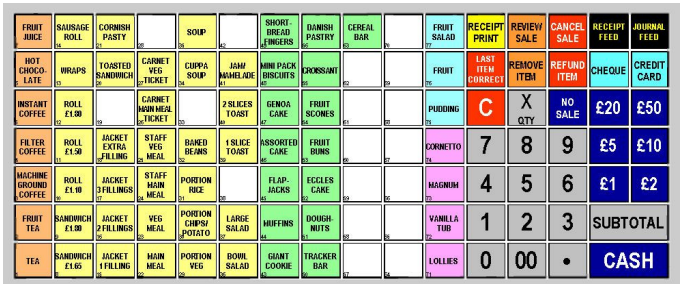
CASIO TE-2400

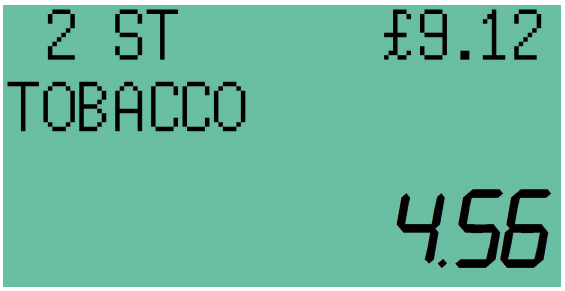
Low profile electronic cash register.

The Casio TE-2400 is an ideal cash register for small Hospitality businesses such as Bars, Cafes & Take away shops.

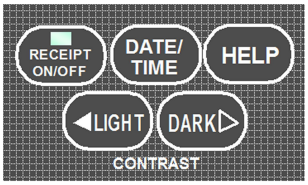
The programmable keyboard has 77 flat menu PLU buttons as standard for sales breakdown, as well as a range of functions to allow total flexibility of use. All PLU's and functions can be programmed with up to 12 characters of text allowing clear sales receipts and reporting.



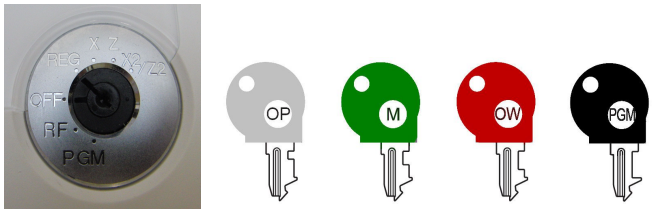
LCD backlit main display with 2 x 16 character alpha and 10 digit 7 segment numeric component.



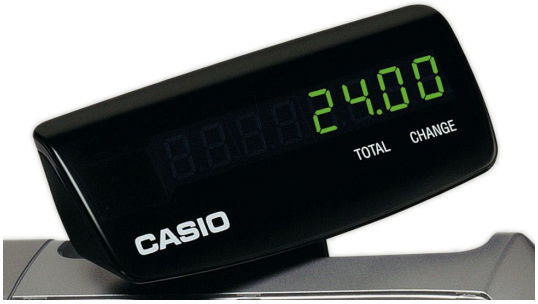
Easy push button contrast control



Incorporating a security lock with both operator and manager keys which allows complete management control of reports and programming.

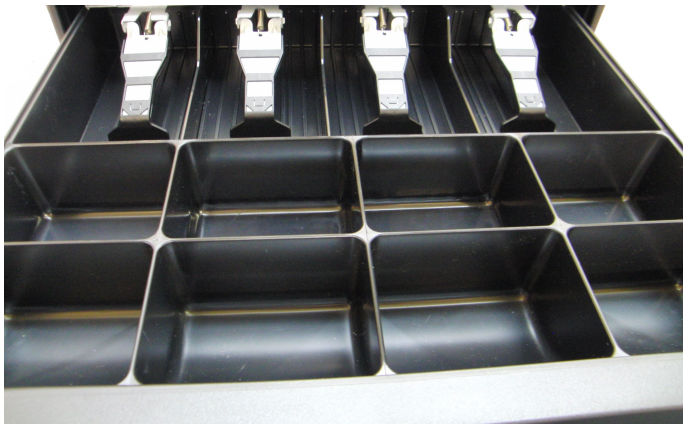


A built in pop up LED eight digit 7 segment customer display is standard.



The two station thermal printer journal can be programmed to operate half height print for paper saving. The receipt can be switched off to save paper. A graphic logo and a four line top and four line bottom store message can be programmed.

The large drawer has four note and eight coin compartments.



The large drawer is fitted with a document slot which allows documents or notes to be placed under the removable cash tray with out opening the drawer.

A key operated lock is fitted for security.

Example of Z (End of Day) report.
